Summary

Full Stack Developer (MERN) skilled in JavaScript, TypeScript, React.js, Node.js, Express.js, MongoDB, RESTful APIs, JWT Authentication, and Role-Based Access Control (RBAC). Delivered production applications with CI/CD pipelines via GitHub Actions, achieving 80% reduction in processing time and 95+ Google Lighthouse scores. B.Tech Information Technology student with 500+ DSA problems solved across CodeChef and LeetCode.

Education

ABES Engineering College, Ghaziabad	Aug 2023 – Present
<i>B.Tech – Information Technology</i> — Dr. A.P.J. Abdul Kalam Technical University	<i>CGPA: 8.0 / 10.0</i>
Sant Atulanand Convent School, Varanasi	2023
<i>Senior Secondary (Class XII), CBSE</i>	<i>89.02%</i>
Sant Atulanand Convent School, Varanasi	2021
<i>Secondary (Class X), CBSE</i>	<i>94.6%</i>

Technical Skills

Languages: JavaScript (ES6+), TypeScript, C++, SQL
Front-End: React.js, HTML5, CSS3, Tailwind CSS, Vite
Back-End: Node.js, Express.js, RESTful API Design, JWT Authentication
Databases: MongoDB, MySQL, Mongoose ODM
Tools & DevOps: Git, GitHub, GitHub Actions, Vercel, Postman

Projects

Classroom Feedback & Analytics System (ClassIntel)	Jan 2024 – Present
<i>React, Node.js, Express, MongoDB, TypeScript, JWT, GitHub Actions</i> lecture-feedback-system.vercel.app	
- Identified gaps in the college's manual feedback workflow (time-consuming, unstructured, lacking analytics) and scoped an end-to-end automated solution to replace it. - Architected a MERN stack platform with JWT-based authentication, role-based access control (RBAC) across student, instructor, and admin roles, schema-optimized REST APIs, and automated CI/CD pipelines using GitHub Actions. - Reduced feedback processing time by 80%, improved platform performance by 40%, and streamlined deployment workflows through automated build and release processes. - Engineered browser-based proctoring features including tab visibility monitoring and copy-paste restrictions, and implemented MongoDB text indexing for efficient course and feedback search capabilities.	
Developer Portfolio Website	Mar 2024 – Present
<i>React.js, TypeScript, Tailwind CSS, Vite</i> devshdev.live	
- Designed and launched a responsive personal developer portfolio (SPA) with a fault-tolerant contact form using a dual-provider email fallback system via EmailJS and Formspree. - Built with component-based architecture, lazy loading, and code splitting; achieved 95+ Google Lighthouse score for performance & accessibility and 99.9% message delivery reliability. - Fully responsive across all devices and screen sizes with 99.9% uptime via dual-provider fallback.	

Achievements & Certifications

Competitive Programming: Solved 500+ problems across LeetCode, GFG, and CodeChef.	
Achieved 3-Star in SQL on HackerRank.	
Data Structures & Algorithms – Infosys Springboard	2025
Python for Data Science – NPTEL	2025
Google Cloud: Essentials, Generative AI & Kubernetes – Google	2025
Mastering Agentic Design Patterns with Hands-on Projects – Udemy	2026
